

Namekagon River Map & Checklist

Map 3: Trego to Riverside Landing

This river map provides information for the 39.5 mile section of the Namekagon River between Trego and Riverside Landing. This checklist will help you to have a safe and enjoyable trip!

☐ **Personal Floatation Devices (PFDs) are required** onboard for each passenger on all vessels. **Children under the age of 13 must wear a properly fitting PFD** while in moving vessels.

☐ Water levels change. It is dangerous and **illegal to jump from bridges, cliffs or trees** into the river.

☐ **Carry out all trash.** Bring trash bags with you.

☐ **Open fires** are permitted only in steel fire rings or grills. Dead and down wood may be collected for firewood except from islands. Fires must be out and ashes cold before you leave the area.

☐ **Camping** is permitted in designated sites only. **There is a three- night limit of stay.** Most campsites accommodate 3 tents. Group sites accommodate up to 6 tents.

☐ **Primitive toilets** are available at campsites and landings. At river areas without toilets, bury human waste 6 inches deep and at least 100 feet away from river and campsites.

The black sandshell mussel is a species of concern in Wisconsin.

It is illegal to collect or disturb freshwater mussels or their shells.

☐ Avoid **overhanging trees** that are in the water. They can overturn vessels and trap paddlers underwater.

☐ The **Highway 35 bridge** at Riverside Landing is scheduled to be replaced during the summer of 2007. The area downstream of the bridge will be closed for use as a staging area in 2007. Facilities including campsites, restrooms and water will remain open on the upstream side of the bridge.

☐ **Deer ticks** found along the river can carry Lyme disease. Check often for ticks and know the symptoms of the disease.

☐ **Drinking water** is provided at some landings. See reverse for locations. River water must be treated to protect against giardia.

☐ **Glass beverage containers** are prohibited on lands and waters within the Riverway.

Rapids on this stretch of river are usually classified as Class 1, the easiest class.
